

More Troops for Russia.—More Allied troops are urgently needed if the Russia-Alleed campaign in northern Russia is to be carried to speedy success in the opinion of virtually every officer and civilian observer at Archangel says a cable. Before the Russian winter comes it is hoped to reach the hard pressed Czech-Slovakia, establish a front against the Germans and open an uninterrupted line of communication from Vladivostok to Archangel through Vologda.

The available forces have been sufficient to defeat much superior numbers of Bolsheviks but it is pointed out that the necessity for more troops is not so much a question of maintaining the front as of impressing the spirits and convincing them that sufficient power is at hand to insure final victory.

The peasants for the most part are friendly to the Allies and anxious to aid in the movement but fear to join the army because they are apprehensive that the Russo-Alleed forces are not sufficiently strong.

The Russo-Alleed leaders feel certain of important results if the forces at their disposal are sufficient. When they reach the thickly populated provinces there are large Russian forces organized and waiting to join them but while they are maneuvering through the thinly populated swamps of the north the chief reliance must be upon the Allied troops themselves. The Austro-German direction of the Bolshevik forces is daily increasing in scope. Near Kotlas there are known to be 20 German officers organizing the artillery.

WHEN A MAN SAYS—

"I'll take a chance against loss by fire," it means that he doesn't like to think of what his financial position would be if his store or other property should be burned without insurance or under-insured.

If he is in business he loses sight of the FACT that if it is insured against fire, he gets the better for him, and his creditors, because practically all wise and successful business men do not carry the fire risk themselves, but are anxious to pay a corporation that is in that line to carry it for them.

WHY DO ALL DOCTORS PRESCRIBE CALOMEL?

Of all the medicines in the world, doctors prescribe calomel most often and depend upon it most universally. There must be a good and sufficient reason—what is it?

If you will study the doctor's books you will find that the medical authorities prescribe calomel for almost every disease. The reason is that calomel is the greatest and only thorough system-purifier. It makes the liver active, drives out the poisons from the stomach, bowels and kidneys and thereby purifies the blood. Calomel puts the entire system in the most favorable condition for Nature to exercise her recuperative power. Your doctor will tell you that drugs merely assist Nature. That is why he prescribes calomel so often.

The new kind of calomel, called "Calomel," is refined and purified from all of the nauseating and dangerous qualities of the old style calomel and is rapidly taking its place, for it is more effective than the old style calomel as a liver-cleaner and system-purifier. One Calomel at bedtime, with a swallow of water—that's all. No nausea, no sleeplessness, no unpleasantness. Next morning you awake feeling fine—with a hearty appetite for breakfast. Eat what you please—fruits, acids or anything. No restriction of habit or diet. Calomels are sold only in original sealed packages, price thirty-five cents. Recommended and guaranteed by druggists everywhere. Your money back if you are not delighted.—(Adv't.)
